Dear colleagues,

It is with great pleasure that we announce the **60th Oncology Congress**, organized by the **Serbian Medical Society Oncology Section,** to be held from **November 29 to December 2, 2023,** at the renovated **"Sava Centar"**, in Belgrade, Serbia. As one of the oncology congresses with the longest tradition in Serbia and region, with diverse, multidisciplinary scientific program and speakers of great international impact, we are proud to say that the 60th Oncology Congress has received **endorsement by the European Society of Surgical Oncology (ESSO).**

Main topics of this year's scientific program are focused on innovations in the diagnosis and treatment of breast and lung cancer, gastric, gastroesophageal and locally advanced rectal cancer, gynecological malignancies and soft tissue sarcomas. Special topics in oncology that will be addressed include oncofertility in breast cancer patients, cardio-oncology, radiobiology, psycho-oncology, treatment of brain metastases and supportive oncology – digestive symptoms. In addition to these, participants will have the opportunity to get acquainted with medical challenges in the digitalization era, scientific network in oncology and various projects in Serbia, as well as with current perspectives and future of oncology.

Alongside regular scientific sessions, we have organized **two masterclasses** with limited number of participants: ***Breast Cancer Masterclass***, on systemic treatment of breast cancer, and ***Lung Cancer Masterclass***, on diagnostics and multidisciplinary treatment of non-small cell and small cell lung cancer. Special **ESSO Young Surgeons Alumni Club (EYSAC) session** will introduce to the participants important activities and worldwide impact that ESSO and EYSAC have gained throughout years regarding scientific collaboration, education and networking, and **Forum for Cancer Patients** will address colorectal cancer, prophylactic contralateral mastectomies in breast cancer and HPV vaccination.

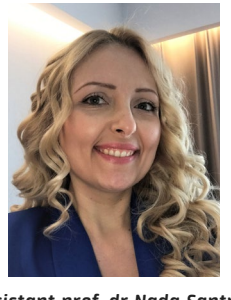

Co-organizers of the 60th Oncology Congress are **Institute for Oncology and Radiology of Serbia** (IORS), **Serbian Society of Surgical Oncology** (SSSO), **Serbian Society of Medical Oncology** (UMOS) and **Serbian Association for Cancer Research** (SDIR).

Join us and enjoy up-to-date topics in oncology that were carefully selected and packed for the large and diverse oncology community.

Welcome!

16:00-16:10	Whole brain radiotherapy – recommendations and controversies	Aleksandar Stepanovic
16:10-16:20	Brain metastases of unknown primary	Rosanda Ilic
16:20-16:30	Q&A, discussion	
16:30-17:30	**Scientific session 2** **Psycho-oncology** Moderator: Marija Andrijic	
16:30-16:40	Integrating Psycho-oncology in cancer treatment	Marija Andrijic
16:40-16:50	Resilience in cancer patients	Mina Mitic Lazarevic
16:50-17:00	The importance of psychological support for cancer survivors	Aleksandar Rangelov
17:00-17:10	The importance of education for cancer patients and families	Svetlana Berat
17:10-17:20	Social support for cancer patients and families	Milijana Matorcevic
17:20-17:30	Q&A, discussion, conclusions	
17:30-19:00	**Forum for Cancer Patients** Moderators: Ana Jovicevic, Svetlana Berat	
17:30-17:40	HPV vaccination	Ana Jovicevic
17:40-17:50	Colorectal cancer – surgical treatment and colostomy	Milan Kocic
17:50-18:00	Colorectal cancer – radiotherapy and combined ChT-RT	Suzana Stojanovic Rundic
18:00-18:20	Q&A, discussion & conclusions	
18:20-18:30	Questionnaire on prophylactic contralateral mastectomy in breast cancer patients in Serbia	Mirjana Brankovic Magic, Europa Donna
18:30-18:55	Panel discussion: Prophylactic contralateral mastectomy in breast cancer patients: who, when and why? Panelists: Ivan Markovic, Olivera Kosovac, Marija Andrijic	
18:55-19:00	Conclusions	

DAY 2, November 30th 2023, THURSDAY

LUNG CANCER MASTERCLASS
Moderators: Benjamin Besse, Federico Cappuzzo, Davorin Radosavljevic

08:00-09:00	**Lung Cancer Masterclass – part 1** **Molecular diagnostics and treatment in advanced NSCLC** Moderators: Benjamin Besse, Niels Reinmuth, Bojan Zaric	
08:00-08:10	How to use NGS in countries with limited resources?	Bojan Zaric
08:10-08:20	The role of liquid biopsies in longitudinal follow-up and disease progression	Niels Reinmuth
08:20-08:30	How to treat synchronous malignancies with targeted agents?	Benjamin Besse

08:30-08:45	Optimal sequence in EGFR/ALK oncogene-addicted advanced NSCLC	Antonio Passaro
08:45-09:00	Q&A, discussion	
09:00-09:15	Coffee break	
09:15-10:45	**Lung Cancer Masterclass – part 2** **Immune Checkpoint inhibitors (CPI) in NSCLC** Moderators: Federico Cappuzzo, Antonio Passaro, Jelena Spasic	
09:15-09:30	PD-L1 and CPI treatment: how to measure and whom to offer mono and combo treatment	Benjamin Besse
09:30-09:45	Duration of CPI first line treatment in stage IV NSCLC	Federico Cappuzzo
09:45-09:55	CPI re-challenge in metastatic NSCLC	Davorin Radosavljevic
09:55-10:05	Late-onset immune-related toxicity of CPI in the treatment of NSCLC	Katja Mohorcic
10:05-10:15	Considerations for immunotherapy in special populations (relative and definitive contra-indications for CPI)	Jelena Spasic
10:15-10:45	Q&A, discussion	
10:45-11:00	Coffee break	
11:00-12:45	**Lung Cancer Masterclass – part 3** **Early and locally advanced NSCLC** Moderators: Mir Alireza Hoda, Marko Jakopovic, Benjamin Besse	
11:00-11:15	Neoadjuvant studies in operable III stage NSCLC – a step forward or a remastered old tale?	Antonio Passaro
11:15-11:25	Surgical treatment and perioperative strategies – a surgeon's view	Mir Alireza Hoda
11:25-11:40	Stage II-IIIA NSCLC – do we have a standard for adjuvant treatment?	Niels Reinmuth
11:40-11:50	The role of ctDNA in early NSCLC – how far are we from clinical practice?	Marko Jakopovic
11:50-12:00	The value of „early" end-points (pCR, MPR) in neoadjuvant trials	Bojan Zaric
12:00-12:15	Multimodal strategies and immunotherapy trials in unresectable III stage NSCLC	Jelena Spasic
12:15-12:45	Q&A, discussion	
12:45-13:30	LUNCH for Masterclass attendees	
13:30-14:45	**Lung Cancer Masterclass – part 4** **Small cell lung cancer - recent data and state-of-the-art** Moderators: Katja Mohorcic, Milica Kontic Jovanovic, Servet Bolukbas	
13:30-13:40	The role of surgery in SCLC – is it time for shift of paradigm?	Servet Bolukbas

13:40-13:55	What is the optimal first-line for extensive stage SCLC?	Federico Cappuzzo
13:55-14:05	Biomarkers and SCLC subtypes – do they provide any help in clinical practice?	Milica Kontic Jovanovic
14:05-14:15	Radiation therapy in extensive stage SCLC – thoracic and brain radiotherapy	Natasa Jovanovic Korda
14:15-14:30	Systemic treatment for recurrent SCLC	Katja Mohorcic
14:30-14:45	Q&A, discussion	
14:45-16:00	Break	
16:00-17:30	**Scientific symposium 1** **ESSO Young Surgeons Alumni Club (EYSAC): activities and impact** Moderators: Nada Santrac, Carmela Caballero, Milan Kocic	
16:00-16:10	ESSO & EYSAC: Vision, mission and worldwide impact	Nada Santrac, EYSAC SC, NatRep coordinator
16:10-16:20	Why surgeons need to be leaders in cancer research?	Carmela Caballero, EYSAC Chair
16:20-16:30	Pathway into surgical oncology for young surgeons	Johnn Henry Herrera Kok, EYSAC RA
16:30-16:40	Q&A	
16:40-16:50	Surgical training and certification via ESSO	Nikolaos Vassos, EYSAC SC
16:50-17:00	International fellowships in oncology - how to make the best of it	Eduard-Alexandru Bonci, EYSAC SC
17:00-17:10	Long-term benefits of education and fellowships in surgical oncology	Mihai-Stefan Muresan, EYSAC ex-NatRep
17:10-17:30	Q&A, Conclusions	
17:30-17:40	Coffee break	
17:40-18:40	**Scientific symposium 2** **Diagnostic challenges in 21st century: texture analysis, radiomics and use of artificial intelligence** Moderators: Marcus Hacker, Mirjan Nadrljanski, Miljana Tanic	
17:40-17:50	Application of artificial intelligence in oncology - basic principles	Miljana Tanic
17:50-18:00	Application of supervised machine learning methods in personalized treatment of thyroid carcinoma	Marina Popovic Krneta
18:00-18:10	Tumor texture analysis: early tumor response assessment in neoadjuvant setting	Mirjan Nadrljanski
18:10-18:20	Application of radiomics in predicting the response of locally advanced rectal cancer	Mladen Marinkovic
18:20-18:30	Application of artificial intelligence in positron-emission tomography (PET-CT)	Marcus Hacker
18:30-18:40	Q&A, discussion	

ORAL PRESENTATIONS

DAY 1, November 29th 2023, 19:10-20:10, HALL A

Moderators: Ana Cvetanović, Marko Spasić
Each presenter max 5 minutes

1. **Kristina Janković**
   Značaj neoadjuvantne terapije kod HER2 pozitivnog karcinoma dojke / Neoadjuvant therapy in HER2-positive breast cancer
2. **Jelena Oblaković-Babić**
   Prognostički faktori kod pacijentkinja sa HR-pozitivnim/HER2-negativnim karcinomima dojke lečenih neoadjuvantnom hemioterapijom / Prognostic factors after neoadjuvant treatment for patients with HR-positive/HER2-negative breast cancer
3. **Marina Čalamać**
   Uticaj indeksa telesne mase (BMI) na patološki odgovor nakon neoadjuvantne hemioterapije (NHT) kod menopauznih žena sa ranim hormon receptor (HR) pozitivnim HER2 negativnim karcinomom dojke (KD)
4. **Ognjen Đurmez**
   Patološki kompletan odgovor (pCR), interval bez bolesti (DFI) i ukupno preživljavanje (OS) nakon neoadjuvantne hemioterapije (NHT) kod pacijenata sa HER2-0 i HER2-low ranim karcinomom dojke (KD) – iskustvo sa Instituta za onkologiju i radiologiju Srbije (IORS)
5. **Milana Matović**
   Safety of Herceptin and Trastuzumab biosimilar in metastatic HER2 - positive breast cancer patients
6. **Jadranka Lakićević**
   Učestalost PIK3CA mutacije kod HR+HER2- metastatskog karcinoma dojke u Kliničkom centru Crne Gore
7. **Marija Dimitrijević**
   Jednogodišnje iskustvo u kliničkoj primeni cikliba u lečenju metastatskog hormon pozitivnog HER2- karcinoma dojke (mHR+HER2-) – DBHT IORS-a
8. **Simonida Bobić**
   Expected and unexpected palbociclib-associated toxicities
9. **Slobodan Kutić**
   Ribociclib in metastatic breast cancer: single institution real world data
10. **Marina Petronijević**
    Godinu dana primene inhibitora ciklin zavisnih kinaza 4 i 6 (CDK4/6 inhibitora) u šumadijskom regionu / One year of application of inhibitors of cyclin-dependent kinases 4 and 6 (CDK4/6 inhibitors) in the Šumadija region

DAY 2, November 30th 2023, 18:40-19:00, HALL A

Moderators: Marijana Milovic Kovacević, Petar Radlović
Each presenter max 5 minutes

1. **Ana Cocić**
   Uloga minimalno invazivne hirurgije u lečenju karcinoma endometrijuma / The role of minimally invasive surgery in the treatment of endometrial cancer
2. **Slobodan Maričić**
   Ishodi lečenja pacijentkinja sa uznapredovalim ovarijalnim karcinomom u eri primene bevacizumaba
3. **Lidija Pavlović**
   Olaparib maintenance therapy in BRCA-mutated ovarian cancer patients with renal insufficiency

DAY 3, December 1st 2023, 19:00-20:00, HALLA

Moderators: Nada Santrač, Tamara Ursulović
Each presenter max 5 minutes

1. **Nikola Jeftić**
   Correlation of preoperative evaluation and pathohistological findings after surgical resection of BI RADS 3/4 and B3/B4 breast lesions
2. **Anđela Ivezić**
   „Immediate breast remake": rekonstrukcija ugradnjom implanta-od subpektoralne do prepektoralne tehnike / "Immediate breast remake": direct to implant reconstruction–from total muscle coverage to prepectoral technique
3. **Zoran Gajić**
   Odlike karcinoma dojke u Rasinskom okrugu 2018.-2022. godine - šta se promenilo u toku Kovid 19 epidemije / Characteristics of breast cancer in the Rasin district 2018-2022. years - what changed during the Kovid 19 epidemic
4. **Sofija Pantelić**
   Visokorizični DBKL- iskustvo jednog centra / High grade DLBCL- single center experience
5. **Aleksandar Popović**
   Neželjeni efekat imunoterapije kao prediktor boljeg terapijskog odgovora- iskustvo centra / Adverse event as a predictor of durable response to immune checkpoint inhibitors in melanoma patients- single centre experience
6. **Marija Milosavljević**
   Body Mass Index (BMI) and Adult Comorbidity Evaluation 27 (ACE-27) as A Prognostic Factor of Overall Survival (OS) In Locally Advanced Head and Neck (H/N) Cancer Patients
7. **Tamara Ursulović**
   New therapeutical approach in treatment of nasopharyngeal cancer: sequentional chemotherapy Epirubicin-Cisplatin combined with radiotherapy, a eighteen years of follow up
8. **Milka Vještica**
   Značaj multidisciplinarnog konzilijuma u liječenju karcinoma prostate
9. **Irena Aligrudić**
   Institucionalno iskustvo SRS VMAT planiranja sa jednom kranijalnom metastazom u IO KCCG

DAY 4, December 2nd 2023, 08:00-09:00, HALL A

Moderators: Milan Kocić, Neda Nikolić

Each presenter max 5 minutes

1. **Vladimir Jokić**
   ALPPS procedura-Iskustvo klinike za onkološku hirurgiju Instituta za onkologiju i radiologiju Srbije.
2. **Jovan Raketić**
   Korelacija radiološkog i hirurškog PCI-a (peritoneal cancer index) kod pacijenata lečenih tokom deset godina na KOH IORS / Correlation of radiological and surgical PCI (peritoneal cancer index) in patients treated at Surgical Oncology Clinic, Institute for Oncology and Radiology of Serbia during a ten-year period
3. **Zoran Petrović**
   Terapija pacijenata sa BRAF mutiranim metastatskim kolorektalnim karcinomom: retrospektivna analiza
4. **Miljana Džunić**
   Poređenje efikasnosti dva tipa biološke terapije u lečenju bolesnika sa jetrenim metastazama kolorektalnog karcinoma bez mutacija u RAS genima / A Comparison of the Efficacy of Two Types of Biological Therapy in the First Line Treatment of Patients with Liver Metastases of Colorectal Cancer without RAS Genes Mutations
5. **Nemanja Stanić**
   Imatinib in metastatic gastrointestinal stromal tumors: 17 years' experience in Institute for Oncology and Radiology of Serbia (IORS)
6. **Nevena Ranđelović**
   Epidemiološke karakteriste obolelih od karcinoma pluća u Centralnoj i Zapadnoj Srbiji / Epidemiological characteristics of lung cancer patients in Central and Western Serbia
7. **Andrijana Kojić**
   Primena alektiniba u lečenju odmaklog nesitnoćelijskog karcinoma pluća (NSCLC) – iskustvo Instituta za onkologiju i radiologiju Srbije (IORS) / Alectinib in the treatment of advanced non-small cell lung cancer (NSCLC) - experience at the Institute of Oncology and Radiology of Serbia (IORS)
8. **Filip Marković**
   Efikasnost pembrolizumaba u prvoj liniji terapije kod starijih pacijenata obolelih od metastatskog nesitnoćelijskog karcinoma pluća sa visokom PD-L1 ekspresijom – Iskustva jednog centra / Efficacy of first-line pembrolizumab in elderly patients with advanced non-small cell lung cancer with high PD-L1 expression – A single center experience
9. **Mina Vasović Marković**
   Incidentalomi jetre kod onkoloških pacijenata i dijagnostičke dileme
10. **Suzana Matković**
    Atezolizumab u drugoj liniji lečenja metastatskog urotelijalnog karcinoma: podaci iz realne kliničke prakse / Atezolizumab in the second-line treatment of metastatic urothelial carcinoma: data from real clinical practice

ePOSTER PRESENTATIONS

1. **Aleksandar Martinović**, Increase of genetic tested patients at Surgical Oncology Clinic, Institute for Oncology and Radiology of Serbia
2. **Dobrica Stević**, Udaljeni potkožni depoziti malignog filodnog tumora dojke kao jedina mesta relapsa bolesti – prikaz slučaja / Distant subcutaneous deposits of malignant plyllodes tumor of the breast as the only sites of disease relapse – case report
3. **Saška Pavlović**, Poređenje kliničkog određivanja veličine tumora i statusa aksilarnih limfnih čvorova kod invazivnog karcinoma dojke sa histopatološkim nalazom / Clinical assesment of tumor size and axillary lymph node status in invasive breast cancer compared with histopathological examination
4. **Anđelija Cvetković**, Radioterapijom indukovani angiosarkom dojke nakon poštedne operacije – prikaz slučaja s osvrtom na literaturu / Radiation-Induced Angiosarcoma Of The Breast After A Breast-Conserving Surgery - A Case Report with Literature Review
5. **Kristina Janković**, Primena CDK4/6 inhibitora kod muškaraca sa karcinomom dojke – prikaz slučaja / CDK4/6 inhibitors in male breast cancer - case report
6. **Danijela Nićiforović**, Pneumonitis izazvan CDK4/6 inhibitorima (Ribociklibom): značaj rane dijagnoze - prikaz slučaja / CDK4/6 inhibitors (Ribociclib)-induced ILD/Pneumonitis: the importance of early diagnosis - a Case Report
7. **Marina Petronijević**, Dijagnostička dilema - Stevens Johanson sindrom (SJS), Toksicna epidermalna nekroliza (TEN) kod HER2 pozitivnog karcionoma dojke, pacijentkinje lečene Docetakselom – prikaz slučaja. / Diagnostic dilemma - Stevens Johanson syndrome (SJS), Toxic epidermal necrolysis (TEN) in HER2 positive breast carcinoma, patient treated with Docetaxel – case report.
8. **Teodora Brdar Zelen**, Primena CDK4/6 inhibitora u lečenju metastatskog karcinoma dojke – jednogodišnje iskustvo opšte bolnice Subotica / Use of CDK4/6 inhibitors in treatment of metastatic breast cancer – one year experience from general hospital Subotica
9. **Mira Karadžić**, Određivanje koronarnog arterijskog kalcijum (CAC) skora kod pacijentkinja sa karcinomom dojke lečenih postoperativnom radioterapijom – serija slučajeva / Determination of the coronary artery calcium (CAC) score in breast cancer patients treated with postoperative radiotherapy – the case series
10. **Ivan Petković,** Polatuzumab-Vedotin+Bendamustin+Rituksimab kao "most" ka autolognoj transplantaciji – prikaz slučaja / Polatuzumab-Vedotin+Bendamustin+Rituximab as a "bridge" to autologous transplantation – case report
11. **Ivan Petković**, Polatuzumab-Vedotin+Bendamustin+Rituximab u relaps/refraktarnom difuznom B krupnoćelijskom limfomu (R/R DBKL) – studija serije slučaja jednog centra / Polatuzumab-Vedotin+Bendamustin+Rituximab in relaps/refractory diffuse large B-cell lymphoma (R/R DLBCL) – single institution case series
12. **Andrijana Kojić**, Prediktivni značaj internacionalnog prognostičkog indeksa kod difuznog B krupnoćelijskog limfoma / The predictive significance of the international prognostic index in diffuse large B-cell lymphoma
13. **Petrana Milićević**, Prikaz slučaja: Lečenje HER2 pozitivnog, androgen pozitivnog duktalnog karcinoma pljuvačne žlezde
14. **Tamara Rozgić**, Radioterapija metastaze u parotidnoj žlezdi porekla karcinoma dojke: Prikaz slučaja / Radiotherapy of Breast Cancer Metastasis to the Parotid: A Case Report

15. **Julija Jovanović Ristivojević**, Akutne toksičnosti kombinovanog RT-HT tretmana nekeratinizirajućeg nazofaringealnog karcinoma
16. **Luka Jovanović**, Uloga različitih radioterapijskih thenika u lečenju ograničenog Kaposi sarkoma u pacijenta sa AIDSom prikaz slučaja / The Role of Various Radiotherapy Techniques in the Treatment of Limited Kaposi's Sarcoma in a Patient with AIDS - Case Presentation
17. **Katarina Janković**, Analiza uticaja primene adjuvantne brahiterapije na dugoročnu kontrolu bolesti kod pacijenatkinja sa karcinomom endometrijuma u FIGO Ia stadijumu bolesti / Analysis of the impact of adjuvant brachytherapy on long-term disease control in patients with endometrial cancer in FIGO stage Ia
18. **Milica Radić**, Serozni karcinom jajnika sa koštanim metastazama – prikaz slučaja / Serous adenocarcinoma of the ovary with bone metastasis – case report
19. **Marija Jovišević**, Neobična prezentacija BRCA mutiranog karcinoma jajnika kod pacijentkinje sa komorbiditetima – prikaz slučaja / Unusual presentation of ovarian cancer in BRCA mutated patient with comorbidities – case report
20. **Dragana Petrović Popović**, Kliničke karakteristike i hirurški pristup kod pacijentkinje sa SAMPUSom/melanomom i pleomorfnim dermalnim sarkomom (PDS) na licu – prikaz slučaja
21. **Marina Petronijević**, Primarni melanocitni tumori CNSa, simptomatologija i modaliteti lečenja – prikaz slučaja / Primary melanocytic tumors of the CNS, symptomatology and treatment modalities – case report
22. **Aleksandar Popović**, Autoimuni gastritis kod pacijenta sa melanomom lečenog adjuvatnim pembrolizumabom: prikaz slučaja / Autoimmune gastritis in melanoma patient treated with adjuvant pembrolizumab: case report
23. **Dimitrije** Đurđević, Primena PD-1 inhibitora pembrolizumaba u lečenju melanoma kod pacijenta sa terminalnom bubrežnom insuficjiencijom (TBI) na hemodijalizi - prikaz slučaja / Use of a PD-1 inhibitor pembrolizumab in the treatment of patient with melanoma and end-stage renal disease (ESRD) on haemodialysis - case report
24. **Milan** Čevrljaković, Imunski posredovani hepatitis izazvan primenom pembrolizumaba kod pacijenta sa rekurentnim karcinomom glave i vrata / Immune related hepatitis caused by pembrolisumab in patient with recurrent head and neck cancer – case report
25. **Daniela Donat**, Importance of ultrasound in screening dense breasts-case report
26. **Petar Simurdić**, Multidisciplinarni pristup u dijagnostičkom algoritmu medijastinalne limfadenomegalije – prikaz slučaja
27. **Ivana Petrović**, Matriks produkujući metaplastični karcinom dojke: prikaz slučaja / Matrix-producing metaplastic breast carcinoma: case report
28. **Anđela Milićević**, Miofibroblastom dojke kod pacijenta muškog pola – prikaz slučaja / Myofibroblastoma of the breast in a male patient – case report
29. **Bojana Kožik**, Ekspresija ZEB1 i LOXL2 gena kod karcinoma rektuma i njihova korelacija sa ekstramuralnom venskom invazijom (EMVI): preliminarna studija / Expression of ZEB1 and LOXL2 in rectal carcinoma and their correlation with extramural venous invasion (EMVI): preliminary study
30. **Tamara Jokić Višekruna**, Tretman uznapredovalog metastatskog neseminomskog karcinoma testisa - prikaz slučaja
31. **Miloš Bugarčić**, Multidisciplinarni pristup lečenju pacijenta sa mezoteliomom – prikaz slučaja
32. **Branka** Živković, Komplikacije kod imunokompromitovanih pacijenata sa novodijagnostikovanim multiplim mijelomom – prikaz slučaja / Complications in immunocompromised patients with newly diagnosed multiple myeloma - case report

36. SIMPOZIJUM MEDICINSKIH SESTARA-TEHNIČARA ONKOLOŠKIH INSTITUCIJA REPUBLIKE SRBIJE

1–2. december 2023. • „Sava Centar" • Beograd, Srbija

Dragan Kodžo
Predsednik Sekcije sestara u onkologiji UMSTBS

Slađana Sokolović
Sekretar Sekcije sestara u onkologiji UMSTBS

Stručni odbor

Mirjana Gavrilović
predsednik
Jasmina Paunković
Zorica Marinković
Dragan Kodžo
Vera Mandić
Dragana Mušikić Kraker
Danica Pavlović
Snežana Čurić
Suzana Momčilović Stojković
Vesna Radojičić
Sandra Spajić
Alkica Topić
Jelica Perović

Organizacioni odbor

Slađana Sokolović
predsednik
Jelisaveta Vidosavljević
Marko Ribić
Anđela Vujanac

36. Simpozijum medicinskih sestara-tehničara onkoloških institucija Republike Srbije je akreditovan od strane Zdravstvenog saveta Srbije pod brojem D-1-730/23 kao nacionalni simpozijum sa:

8 bodova za predavače;
7 bodova za usmene prezentacije;
5 bodova za poster prezentacije;
4 boda za pasivno učešće.

36. SIMPOZIJUM MEDICINSKIH SESTARA-TEHNIČARA ONKOLOŠKIH INSTITUCIJA REPUBLIKE SRBIJE

„Zdravstvena nega u onkologiji – multidisciplinarni pristup“

NAUČNI PROGRAM

I DAN PETAK 01.12.2023.

08:00 14:00	**Registracija učesnika**	
08:30 09:00	**Svečano otvaranje 36. Simpozijuma**	
09:00 09:10	**Multidisciplinarni pristup u lečenju I zdravstvenoj nezi obolelih od ranog karcinoma dojke** (uvodna reč moderatora)	Moderator: Milica Krljar Viša medicinska sestra-tehničar, Institut za onkologiju i radiologiju Srbije
09:10 09:25	**Epidemiologija raka dojke** (predavanje)	Vera Mandić Spec. struk. med. sestra, Institut za onkologiju i radiologiju Srbije
09:25 09:40	**Kontrastna mamografija** (predavanje)	Ksenija Zrnić Viši radiološki tehničar Institut za onkologiju i radiologiju Srbije
09:40 09:55	**Značaj BRCA 1 i BRCA 2 genetičkog testiranja u naslednom karcinomu dojke** (predavanje)	Milica Matas Strukovni medicinsko laboratorijski tehnolog, Institut za onkologiju i radiologiju Srbije
09:55 10:10	**Hirurški tretman obolelih od ranog karcinoma dojke** (predavanje)	Milica Krljar Viša medicinska sestra-tehničar, Institut za onkologiju i radiologiju Srbije
10:10 10:25	**Planiranje i sprovođenje 3D konformalne RT nakon poštedne operacije kod ranog karcinoma dojke** (predavanje)	Aleksandar Vasiljević Strukovni medicinski radiolog, Institut za onkologiju i radiologiju Srbije
10:25 10:40	**Ciljana terapija ranog HER2 pozitivnog karcinoma dojke-sestrinski aspekt** (predavanje)	Gorica Marinković Strukovna medicinska sestra, Institut za onkologiju i radiologiju Srbije
10:40 10:55	**Rana rehabilitacija nakon operacije karcinoma dojke** (predavanje)	Dušanka Ćupić Strukovni fizioterapeut, Institut za onkologiju i radiologiju Srbije
10:55 11:10	Diskusija	
11:10 11:20.	Kafe pauza	

11:20 11:30	**Novine u lečenju i zdravstvenoj nezi pacijentkinja obolelih od karcinoma jajnika** (uvodna reč moderatora)	Moderator: Gorica Marinković Strukovna medicinska sestra, Institut za onkologiju i radiologiju Srbije
11:30 11:45	**Karcinom jajnika – izazovi u lečenju i zdravstvenoj nezi** (predavanje)	Jelena Nikolić Strukovna medicinska sestra, Institut za onkologiju i radiologiju Srbije
11:45 12:00	**Operativno lečenje karcinoma jajnika – sestrinski aspekt** (predavanje)	Marijana Cvitkovac Viša medicinska sestra tehničar, Klinika za ginekologiju i akušerstvo, UKCS
12:00 12:15	**Značaj BRCA ½ mutacija u lečenju karcinoma jajnika** (predavanje)	Marijana Topalović Strukovni medicinsko laboratorijski tehnolog, Institut za onkologiju i radiologiju Srbije
12:15 12:30	**Ciljana terapija uznapredovalog BRCA ½ mutiranog ovarijalnog karcinoma – sestrinski aspekt** (predavanje)	Bojana Stanković Viša medicinska sestra-tehničar, Institut za onkologiju I radiologiju Srbije
12:30 12:45	**Bezbedonosni profil Olapariba – sestrinski aspekt** (predavanje)	Jasmina Mitrović, Strukovna medicinska sestra, Institut za onkologiju i radiologiju Srbije
12:45 13:00	**Specifičnosti zdravstvene nege kod pacijentkinje sa karcinomom ovarijuma – prikaz slučaja** (predavanje)	Bojana Velisavljević Strukovna medicinska sestra, Institut za onkoogiju i radiologiju Srbije
13:00 13:15	**Podrška pacijentkinjama – uloga sestre u postizanju boljih ishoda lečenja** (predavanje)	Gorica Marinković Strukovna medicinska sestra, Institut za onkologiju i radiologiju Srbije
13:15 13:30	Diskusija

Nauka će pobediti

U Pfizer-u smo konstantno u neumornoj potrazi za naučnim otkrićima i revolucionarnim lekovima koji će stvoriti zdraviji svet za sve.[1] Ponosno sarađujemo sa hiljadama studijskih centara i desetinama hiljada ispitanika širom sveta, što omogućava razvoj lekova koji menjaju živote.[2] Sve odluke koje donosimo, usmerene su na očuvanje zdravlja i kvaliteta života naših pacijenata. Našu svrhu ispunjavamo tako što nastojimo da budemo izvor najnaprednije nauke na svetu u saradnji sa partnerima iz sistema zdravstvene zaštite, kako bismo poboljšali pristup Pfizerovim lekovima. Uostalom, jedan od naših glavnih ciljeva je da negujemo okruženje u kojem značajna otkrića mogu napredovati.[3]
